SUMMARY

Dynamic English Language Trainer with proven expertise in curriculum development, educational technology, and academic coordination. Over 7 years of teaching and training experience combined with strong skills in data analysis, e-learning systems, and program design. Successfully established electronic attendance systems, iLMS platforms, and innovative phonics training websites to enhance learning outcomes. Experienced in managing multi-branch curriculum implementation and providing analytical reports that support academic decision-making. Now seeking to leverage this background into a Head of Department role, leading teams, driving innovation, and raising academic standards.

SKILLS

- Academic Leadership : curriculum design, program planning, and multi-branch implementation.
- English Language Training - ESL : Business English, IELTS preparation, and phonics instruction.
- Educational Technology (EdTech) : Development of iLMS platforms, e-learning tools, and interactive training websites.
- Data Analysis & Reporting : Attendance tracking, performance analysis, and actionable insights for management.
- Curriculum & Material Development : Designing syllabi, lesson plans, and interactive resources aligned with learning goals.
- Teacher Training & Development : Supporting colleagues with workshops, phonics training, and teaching strategies.
- Project Management : Leading initiatives such as electronic attendance systems and digital learning platforms.
- Content Creation & Media : Educational videos, YouTube tutorials, and engaging learning materials.
